

COVID-19 Childcare Policy

At Paper Kites Preschool we adhere to the COVID-19 guidelines that are required for a private institution to continue our practice of a healthy and safe environment. CDC, licensing, and myself, Carole Jensen (owner and operator) request that parents are fully aware of the current policies and procedures, and return a signed copy of this document.

In order to remain open and maintain a well kept environment, the following policies and procedures must be strictly enforced:

- Children are not expected to wear masks, *however* we practice social distancing in small groups during all activities, learning time, and play time.
- Parents will not enter Paper Kites Preschool to ensure the safety of the children and Faculty. Please utilize our “turn around” to pick-up/drop-off your child and be courteous to other parents/drivers.
- Your child’s temperature will be taken upon arrival. Please check your child’s temperature frequently, especially if exhibiting any sort of abnormal behavior, including but not limited to: sleeping more than usual, lack of appetite, being quiet or extra tired.
- We practice extra handwashing upon our regular routine. Hand sanitizer is issued upon arrival and departure.
- We teach cough/sneeze etiquette to the children with an emphasis on how to help prevent the spread of infection.
- Daily cleaning is performed before arrival and after departure
- If a child is sick with ANY illness they will be excluded from care and need to be symptom-free (without medication) for 5 days before returning
- If a child exhibits COVID-19 symptoms, they will be excluded for 14 days with no other symptoms before returning and **MUST** be tested before returning
 - If tests come back negative they are welcome to return symptom free (without medication) for 5 days before returning
 - If tests are positive, we will follow the CDC health department guidelines. If all exposed we will need to be isolated for 14 days and preschool will be closed during that time.

- Any family member that is ill, your child is excluded from care and need to be symptom-free (without medication) for 5 days before returning
- Please notify us of any symptom immediately.

We thank you for your cooperation and for trusting us with your children during these times. Please sign and return as soon as possible.

I have read the "COVID-19 Child Care Policy" and will follow each policy strictly.
